**REGION 2 WEEKLY HIGHLIGHTS TO ADMINISTRATOR
WEEK OF 04/12/18**

Hot Issues:

Not Responsive

Limetree Bay Terminal (LBT), St. Croix, USVI, Air Permit Questions: On 4/5 the Assistant Administrator for Air signed EPA's response to questions raised by LBT regarding its plans to restart refinery operations at the facility. EPA concurred that: (1) restarting of the refinery's idled units for the MARPOL Project should not be treated as a new stationary source under the current Reactivation Policy; (2) the MARPOL Project and the Renewable Diesel Fuel Project are independent of each other and therefore separate projects for PSD applicability; and (3) constructing the Single Point Mooring project would be considered a modification to an existing emissions unit rather than a new emissions unit.
